

RITE NOW @ ROP

Recently, Sycamore Canyon Academy ushered in the Autumn season by hosting their first annual Harvest Festival. The day—meant to foster positive relationships between Sycamore Canyon staff and students—included a wide variety of fun and festive activities. A local vendor provided the trappings of an obstacle course and two huge “hamster balls” that students used to roll around the campus. Activities also included a cupcake walk as well as games hosted in the on-site chapel.

The festival also included a barbecue lunch (prepared by SCA Dining Hall staff), cotton candy, popcorn and sno-cones enjoyed by all on the “mush ball field.” As the festival came to a close, it was apparent by the large smiles of staff and students that the day had been a success. Sycamore Canyon is looking forward to celebrating the holiday season with its first annual Winter Festival.
