

Sycamore Canyon Academy

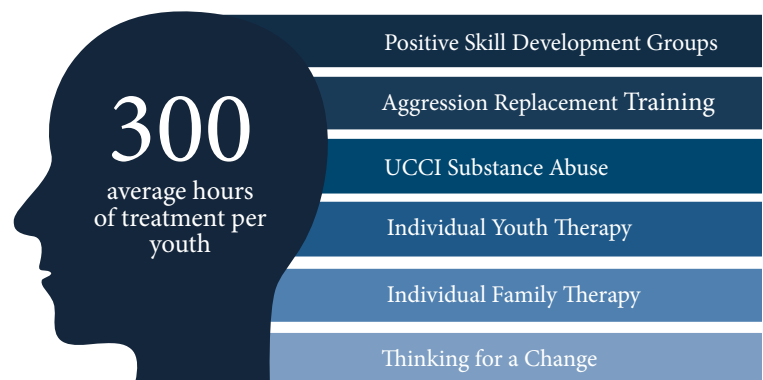

2018 Outcomes

In 2018, the young men at Sycamore Canyon Academy attended AdvancED accredited classes, participated in extracurricular activities and developed new skills through evidence-based interventions. These targeted services helped them to plan for a successful future and reunification with their families and home communities.

Education and Vocation

Evidence-Based and Clinical Services

Family and Community Engagement

5.6

family contracts per youth per month

15.4

hours of community service per youth

Positive Youth Development

Sycamore Canyon Academy offers youth opportunities to engage with their peers and community through sanctioned high school sports, community service and cultural/recreational activities. Through meaningful interactions with positive, adult role models, youth learn the skills they will need to lead successful lives. Every ROP program includes programming based on the principles of Positive Youth Development.
