

RITE NOW @ ROP

Students participated in creating a Mural Project that allowed students the opportunity to utilize their skills, teach them about community, project planning, organization and encouraged teamwork. Students participated in an art contest to design mural signs for the Chapel and Main School here at Sycamore Canyon Academy. The management team chose the winning designs, which were then used to create the signs. The signs were constructed by students from plywood and tiles. Students sketched and painted the winning designs on the signs. Students did a great job completing the Project and displaying teamwork.
